

To whom it may concern,  
I enjoy having Satalite radio. It gives us choices we cant get anywhere else.  
Having acess to traffic and weather helps us prepare for the day and get to  
work on time. We pay for these services and dont feel its right for the National  
Association of Brodcasters to decide what we are permitted to listen too. Please  
reject NAB's petition 04-160.
